VOTES CAST FOR SIX PUBLIC QUESTIONS AT THE NOVEMBER 6, 1984 GENERAL ELECTION

PUBLIC QUESTION NO. 1
JOBS, SCIENCE AND TECHNOLOGY BOND ISSUE

Should the "Jobs, Science and Technology Bond Act of 1984" which authorizes the State to issue bonds in the amount of $90,000,000.00 for the purpose of creating jobs by the establishment of a network of advanced technology centers at the State's public and private institutions of higher education and for the construction and improvement of technical and engineering related facilities and equipment as well as job training and retraining programs in high technology fields at these institutions; and in a principal amount sufficient to refinance all or any such bonds if the same will result in a present value savings; providing the ways and means to pay that interest of such debt and also to pay and discharge the principal thereof, be approved?

INTERPRETATIVE STATEMENT

Approval of this act would authorize the sale of $90,000,000.00 in bonds to be used for the establishment and construction of a network of advanced technology centers at the State's public and private institutions of higher education to act as an incentive for the expansion and creation of high technology industry and jobs in every region of the State; and for construction and improvement of technical and engineering related facilities and equipment as well as job training and retraining programs in high technology fields at these institutions; and bonds in a sufficient amount to refinance all or any of such bonds if the same will result in a present value savings.
